PENCIL SKETCHES OF TRAVEL.

LETTER V.

CITY HOTEL, New London, } January 30th, 1847. }

MY DEAR FRIEND:—

Are young men never to be trusted with power and responsibility? There is a certain class, in Newport, who shudder at the idea that *young men* are to be advanced, or that they are to assume any important position; they seem to feel that nature is to be revolutionized, and that the whole social and political fabric of society is to be shaken to its centre. Judge Story once said that he had rather trust to men of twenty five and thirty, than those of forty, for brilliant achievements, and great mental efforts; there is much power and truth in this remark, for if the mind and the faculties of man are worth anything—if they can ever be developed, and made to accomplish great and important results, it is in early life. All past history and the experience of every age most fully substantiates this position. True, there is the ardor and indiscretion of youth to contend with, but this must always be so, if they are never confided in. If you make a young man sensible that there is a great weight of responsibility upon his shoulders, and an important destiny is suspended upon his actions, that alone will make him prudent, and he will exercise a caution commensurate with the importance of his situation. But if you impress upon his mind that he cannot be trusted—that he is always to follow, and never to lead, until his locks are whitened by the frosts of years, you will always keep him the inexperienced youth that he is; it is not age that makes the man, in the true sense of the word. He may be as old as Methuselah, and if he does not have practice, his mind will never be matured, and he will at last come upon the stage of action, when his ancestors have departed, as poorly prepared to discharge his duties, as would be St. Paul; the apostle, to draw a special plea, and argue a case in our modern courts of law. I will venture the opinion that there is not a hamlet, village, town or city, in the universe, where the young men have been so little trusted with power and responsibility, and where they have been always kept so completely in the back-ground, as in Newport; and the natural result of all this is that those who possess any energy of character, remove to other places, where there is some business spirit and enterprise, and where it is not considered a curse to be young; those who have not quite so much natural activity, crawl along in the ways of their fathers, and live from hand to mouth, and their highest ambition is to echo the songs of the leaders, and, conference meeting-like, shout amen to what the fathers say and do.—Such politic wisdom is not written in my philosophy, and, for one, I am not disposed to be smothered any longer in the musty mantle of antiquity. No man has greater veneration for age than myself, and no one listens with more profound respect to the experience of years than I do; but, at

the same time, while I profit by what they know, and have seen, I am not disposed to remain inactive myself, and never become a participator in the important events of life, until I am so old that the energy and vigor of youth have entirely subsided.

They may have done well, and perhaps I may improve, with the advancement of the age, in knowledge, upon their works; and why should I not have an opportunity to do so, while my faculties are in the full prime of their vigor? The young men of Newport are alone to blame for the false position which they now occupy; they are strong enough, if they would only think so, to arouse in their might, and throw off the oppressive yoke which has so long subjugated them to the dictation of others. I know that there is talent, energy, enterprise and business habits in them, if they would only make the effort, and come forth, Hercules like, omnipotent in their own strength. By such a course, I am aware that they will receive the bitter anathemas of some, and others will modestly pronounce them the degenerate sons of noble sires; but what of all that? It amounts to nothing; we have only to preserve the purity of our consciences, and always pursue such a course as we know to be right, and no harm will befall us. Yours always, F. LORTO.

33—'Take your time, Miss Lucy,' as the watch-maker said when he presented that lady with her watch.

34—Fish have a prodigious power of muscle; the velocity with which a whale moves through a dense medium of water, would carry him, if continued at the same rate, round the world in less than a fortnight.

A VERY GOOD REASON.—Prince Albert was blaming a little boy at Eton for not having learnt more at his age. 'It's not my fault, Sir,' replied the young dunce, 'for we have a holiday every time a new prince is born.'

35—One ounce of the silk worm's thread will extend a distance of 1,860 miles! The same weight of the thread of the common grass spider will reach 1,500 miles.

36—You look as if you were beside yourself, as the wag said to the fellow who stood by the side of his ass.

37—An Indian chief being asked his opinion of a cask of wine presented to him by an officer, said he thought the juice was extracted from women's tongues and lions' hearts, for when he drank a bottle of it, he could talk forever and fight the devil.

38—Tampico is spoken of as a Paradise.—Our troops are luxuriating on green peas, oranges, bananas, lemons, canvass-back ducks, teal, snipe, &c.

39—The Turkish Government has had several varieties of cotton seeds, and men competent to superintend their culture, recently brought from America, for the purpose of trying the experiment of cultivating the American varieties of cotton in the different provinces of the empire, in which every kind of climate exists.

NEWPORT DAILY NEWS.

MONDAY, FEBRUARY 1, 1847.

Stern old winter is rapidly passing away, as gently as an infant is hushed to sleep, and ere a few more weeks have elapsed, spring, with all its budding flowers and sweet perfumes will be upon us again. This has been the mildest winter known for many years; indeed, an aged man told us yesterday that he had never known so remarkable a warm winter. Such open weather, as a general thing, we presume is unhealthy, but people must be more guarded and careful than usual, or they will sow the seeds of premature disease. Such spring-like weather is a blessing on the poor, for they have not been called upon to suffer the privations which is too generally their lot in the winter season. It also materially aids business operations, for but few of the great avenues by water have been closed, and almost all kinds of vessels, except, perhaps, at the extreme East, have been enabled to perform their customary voyages without much obstructions by ice.

THE STEAMER PERRY.—This fine boat, which has been plying between Newport, Fall River and Providence since last spring, has discontinued her trips for a short time, to make some necessary repairs. The Perry has proved herself worthy the patronage of the public, and we believe she has, for the last month or two, studied their interest rather than her own, for in the winter season there is not travel enough to and from Newport to pay the actual expense of running such a boat, yet she has continued to run until necessity compelled her to lay up and repair. She will be on again about the first of March.

The Perry's commander, Capt. G. W. Woolsey, is a very popular man with the traveling public, and one better calculated for this route could not be found.

Mr. CHARLES STANNARD, her gentlemanly Clerk, is too well known in Newport to need any notice from us to add to his popularity. We have been under repeated obligations to him, as well as to Capt. Woolsey, for Boston papers in advance of the mail.

NEW YORK ILLUSTRATED MAGAZINE.—The February No. of this Magazine has been on our table for several days, and should have been noted before. It is the best No., we think, that has ever been issued. It is embellished with four splendid engravings, the first of which "The Mill Boy," is a splendid line engraving of a boy returning from mill, whose bag of grain has fell from his horse, and he is trying to devise some plan by which to get it on again. The second is a "Lake Scene." The third, a scene in Court, a very fine engraving; and the fourth "Christmas Morning." The contents of this No. before us are from the pens of such writers as Mrs. E. Oaks Smith, Mrs. Frances S. Osgood, W. Gilmore Simms, Seba Smith, and a number of others of equal merit.

Published by William Taylor & Co. 2d Astor House, New York, at \$3 per annum. For sale by Goff.

The friends of the Hon. J. C. Calhoun, it is said, intend to run him at all hazards for the Presidency.

The suspension bridge over the Niagara river will be on a stupendous scale—800 feet long and 200 feet above the river.

HORRIBLE TRAGEDY.—One of the most cold blooded murders was committed in Rome, Penn., a few weeks since, that has come under our notice for a long time. A man by the name of J. P. Langford, who had repeatedly threatened to kill his wife—so often that she thought nothing of the threat, finally put it into execution by shooting her. Monday evening, about dark, he told his wife that he was going to shoot her, and drew a pistol from his pocket and deliberately loaded it in her presence. After having charged the weapon very heavily, he stepped out of the house and told his little son, a lad about seven years of age, that he was going to kill his mother. He instantly returned into the house; and disregarding the entreaties of his wife, held her with one hand, and with the other discharged the contents of the pistol through her body. He was immediately arrested.

The Supreme Court of the United States have recently been engaged on a suit brought by the Merchant's Bank, Boston, against the owners of the steamer Lexington, which was burnt in the Sound a few years ago, for the recovery of \$20,000 that was shipped on board of her at New York, on the night of her fatal passage. We have seen no decision of this matter, as yet.

ATTACK ON THE CASTLE.—The New Orleans Delta is satisfied that an attack will be made on the formidable Castle of San Juan De Ulloa in a few weeks.

Our vessels are daily receiving fresh munitions of war, and everything indicates that important movements will shortly take place—we repeat our expectations that the attack will be made simultaneously on Vera Cruz by land and sea. Persons who have been through the Castle represent that it covers about twelve acres of land, the outer works of massive masonry, and without the walls some twenty-four forts independent of each other. The basements of these forts are used as stores, and a brisk trade is carried on that gives the internal arrangements the appearance of a walled city with street pavements and side walks. The place has been greatly strengthened since the French attacked it.

Last night, says a letter from Monterey, the Hon. Thomas F. Marshall of Kentucky, was at our camp, and spent a part of the night. He is captain of a volunteer company, as also is Cassius M. Clay. He was one of the leaders in the mob that tore down Clay's press. He says that Clay is one of the finest men in the world, but a little headstrong. He and Cassius are now on good terms. Like all Southerners, he quarrels, but holds no grudges.

The Dry Dock at the Brooklyn Navy Yard is now in a rapid state of progression, there being some seven or eight hundred men employed on the work.

CHARACTERISTIC NAMES.—There are two United States steam vessels of war now repairing at the Brooklyn Navy Yard, called the *Scorpion* and *Scourge*.

PROSPERITY OF MANUFACTURES.—The Lawrenceburg (Tenn.) Times, printed at the seat of one of the manufacturing regions of that state, says—

"Our manufacturers are fully manned, and are unable to meet the constantly increasing demand for their fabrics. Prices continue firm and steady, and, as the year comes to a close, promise a great increase of business in the next year."

Ampudia, in reporting to his government, an account of the siege of Monterey, says—

"Although very superior in numbers, the enemy in every encounter suffered great loss; and this is so certain, that while we lost 405 men all counted—killed, wounded and missing—the loss of the enemy was 1,221 killed, 1,080 wounded, and upwards of 1,000 missing—principally volunteers."

This is one of Ampudia's whoppers. It will be recollected that our whole loss did not amount to five hundred; while the Mexican loss very much exceeded that number.

CHEAP LIVING.—The following we extract from the price current of Salem, Ohio, dated January 19th:

Flour per barrel, \$3 to \$3.50; corn per bushel, 25 cts.; oats, 16 to 18 cts.; butter per pound, 9 to 10 cts.; lard, 6 cts.; bacon, 5 to 6 cts.; pork per hundred, \$2.50 to \$3.25.

MEXICO.—A correspondent of the Picayune writes from Havana, Dec. 9:—

"The British steamer arrived yesterday, and brings more interesting accounts. Congress had met, and will continue at all odds the war with the United States. They had been in session twenty days, but as yet no plan had been suggested for raising funds. Had the vote for President been taken by members, Santa Anna would have received but 48 out of 96 votes—no election. But the most strange circumstance is, that Gomez Farias, the personification of federalism, as Santa Anna is of centralism, is elected vice-president, and fulfils the executive duties in the absence of the former. Santa Anna has once expelled Gomez Farias, and it is said that when the election became known, one of the friends of the latter said to him—'Well, you must get ready to go to New Orleans.' 'Veramos,' (we shall see) was the significant answer. Santa Anna won't disband his army, and if congress don't find means, he will become 'the congress,' and do as he pleases. Loperana, in London, has been named as agent to raise a loan of twenty millions of dollars."

I am told that the garrison at San Juan de Ulloa has been several times on the point of "pronouncing," for want of provisions. There are about fifteen hundred months in the castle, and of these one thousand are soldiers. In Vera Cruz the garrison, about twelve hundred, are often on short commons. Midshipman Rogers and his companions were in prison at Vera Cruz, the former awaiting his trial as a spy. He will not be sent to Perote.

The following are particulars of the Indian slaughter which we mentioned several days ago:—

"On the night of the 12th and 13th of December, the latter states, a war party of Yancou Sioux Indians defeated and destroyed fourteen tribes of the Omaha tribe of Indians located at the time at Wood's Bluffs, situated about sixty miles from this place—Bellevue. The men and warriors of the Omahas had left the camp on a hunt; and the Sioux, soon after they reached the camp, discovered that they only had women and children to contend with. The slaughter was terrible—seventy-three were killed and nineteen mortally wounded. Two men made their escape—one of them named Joseph Laficche, a trader in the employ of Mr. Peter A. Sarpy, and at the time in charge of a stock of goods."

QUALIFICATIONS OF AN EDITOR.—He must have the constitution of a horse, obstinacy of a mule, independence of a wood-sawyer, endurance of a starving anaconda, impudence of a beggar, spunk of a chicken-cock, pertinacity of a dun, and entire resignation to the most confounded tread-mill.

Dr. Banning's Patent Body Laxative, For Weakness of the Body.

The following letter is submitted to a discerning public, and the proprietor is enabled to refer to many individuals—whose testimony will satisfy the most incredulous. Be particular and get Banning's.

ning's Laxative, and be put off with nothing else. WARREN, August 22, 1846.

Dr. Boardman—Dear Sir:—Now being about leaving for home, I am able to give thus far a favorable account of the Laxative which I have worn only four days. For more than four years I have suffered greatly from dyspepsia, that scourge of our race. My food has always been so troublesome that my stomach would reject it almost every day—my bowels always constipated—my head always feeling heavy and unpleasant, and my spirits greatly depressed. I was unfitted for any regular business, and I tell you, I had given up the hope of ever being better. I had consulted many physicians and in Boston, those the most celebrated, and spent nearly all the money I could earn, upon them and medicines. Since I have worn the Laxative, all these symptoms have in a great degree vanished, and now, it seems to me, I shall be well again. I find my body regaining its erect position—the spitting up my food is pretty much over, my spirits and energy are returning, and I feel like a new man.

S. W. HILL.

BEWARE OF COUNTERFEITS AND IMITATIONS.—The unparalleled and astonishing efficacy of Dr. Wistar's Balsam of Wild Cherry, in all the diseases for which it is recommended, curing many cases after the skill of the best physicians was unavailing, has effected a large and increasing demand for it. This fact has caused several unprincipled counterfeiters and imitators to palm off spurious mixtures, of similar name and appearance, for the genuine Balsam. Some are called "Syrup of Wild Cherry," "Balsam of Spikenard," "Wild Cherry, Confection," &c. Another, "Wester's Balsam of Wild Cherry," misspelling the name, and forging certificates to resemble those of the true Balsam. "Dr. Wistar's Balsam of Wild Cherry" is the only genuine. The rest merely imitate the name of the original, while they possess none of its virtues. Look well to the marks of the genuine. The genuine Balsam is put up in bottles, with the words, "Dr. Wistar's Balsam of Wild Cherry, Philad.," blown in the glass; each bottle bearing a label on the front, with the signature of H. WISTAR, M. D. This will be enveloped hereafter with a new wrapper; copyright secured, 1844; on which will always appear the written signature of "I. Butts." None genuine, unless signed I. Butts on the wrapper.

Ulcers, Rheumatism,

AND weakness, cured by Coons' German Pain Extractor. Read the following certificate.

Schaghticoke, April 6, 1815.
This is to certify that I had my feet badly frozen in the year 1838, and from that time to 1813, I was unable to heal a running sore produced by the injury of the frost, which was painful, being compelled to keep it dressed as an ulcer. After having tried many prescriptions of Physicians and applied many of the Salves and Plasters of the day, that came within my knowledge in vain. I applied in the winter of 1813 a plaster of Coons' Pain Extractor, and was soon convinced that it was affording me relief, and the Ulcer assumed a different appearance. I sent to the residence of Mr Coons for a box, and before I used up one box my foot was healed up, and remains sound until the present time. I have also used it as a strengthening plaster and for Rheumatism, with which I have been afflicted, and have never tried any remedy that gave so much relief as Coons' German Vegetable Pain Extractor.

DR. BANNING'S PATENT LACE!

An immediate Relief to Incipient Consumption, the Bronchitis of Public Speakers, Palpitation of the heart, Dyspepsia, Spinal Weakness, Piles, Protrusions, and Diseases of Women, without Medicines.

THIS instrument has been examined by Drs. Mott, Rodgers, Francis, and Grison of New York, the faculty of Pittsburgh, Hartford, New Haven and Middletown, and has obtained for itself their favorable testimony. The following will show what kind of testimony might be produced in many cases:

Middletown, June, 25th, 1813.

Dr. Boardman, Sir—In answer to your inquiry respecting my case, I will merely say, that I have been sick since I strained my breast and loins in May, 1836, from that time continued to grow worse, when in the fall of '39, I abandoned business, and have not done any thing since. I suppose from all I could learn about my case—frequently raising blood, coughing very hard and expectorating profusely, deriving no benefit from my physicians, and all medicines recommended to me, that my case was hopeless. Last winter my brother told me he had heard a good account of Dr. Banning's Lace in such cases, and was anxious that I should try it; accordingly I procured one from you, and since I began to wear it, my breathing, which was very short and laborious, has become easy and natural; the pain and fluttering or palpitation of the heart has subsided; cough and expectoration greatly lessened, my limbs which were exceedingly painful have become useful, so that I can walk comfortably. I am able to slave myself with comfort, which for many years I have not been able to do. The piles, which have troubled me for nine years, are nearly eradicated. I work some in the garden, and am able to ride 4 miles at once with pleasure and benefit. Yours, &c. WM. RANNEY.

Dr. G. M. Boardman, Middletown, June 25, 1813.

Dr. Boardman, Dear Sir—In answer to your inquiries respecting the effect of Dr. Banning's Lace in the case of my wife, I will state that for twenty years past, she has been afflicted with a complication of complaints to which females are subject. She has tried all the physicians and all the medicines recommended for such complaints, without regard to expense, and found only temporary relief. Her most distressing complaints, palpitation of the heart, oppression and a sense of great weight at the pit of the stomach, protrusion of the womb, &c., were believed after wearing the lace two hours, and she has continued to improve daily. With this view of the case I cannot use language strong enough to convey my approval of the instrument. aug. 20th STEPHEN BROOKS, JR.

PROVIDENCE, Feb. 26, 1816.

Doctor Boardman, Dear Sir—I now take my pen to inform you that my wife's health has improved very fast for the last two weeks from wearing one of your Laces. She has been out of health about two years and has worn a different Supporter from yours, which had only two pads. She received some benefit from that—but it would not produce a cure. But now I can say with pleasure that she is as smart as any of the young girls in the neighborhood. She can now run up and down stairs as fast as I can, and I feel so well pleased with it that I hardly know how or what to write. But one thing I do now, that she has been under the care of seven Doctors in one year—and wearing your Lace two weeks has or will do the cure in a very short time. I want to write more, but I have no time. I am truly, your friend and well wisher. J. * * *

Doctor Boardman, proprietor of Bannings' celebrated Patent Body Brace, for this state, has taken rooms at No. 2, Broad street, where he may be consulted, free of charge. He is enabled to treat, successfully, cases of Rheumatism, Neuralgia, Headaches, Deafness, loss of Voice, Bronchitis, Weakness and curvatures of the spine, and chronic diseases generally. He is enabled to refer to numerous cases in Providence, and this town. aug 28

LORRAINE'S PILLS.
All persons require. **DR. LORRAINE'S CURATIVE SYSTEM OF MEDICINE** is rapidly producing achievements never before known in the cure of diseases. The immensity of its wonderful results, alone demonstrate that its principles must be founded on truth. The relative proportion of Cures by this Medicine is out of all proportion greater, than by any other Medicine known.

THE THEORY is, that one blood heats in the bosom, and flows through the body of every man, and must be pure, it is the Vital Principle that sustains life.

Physicians, and people of every class are willing to come forward and announce, in the most public manner that they have been cured of longstanding complaints—after another medicine had failed. In act there can be no doubt but that Lorraine's vegetable Pill is the best medicine ever offered to the public.

See a few public statements of men of truth and virtue.

Lyons, Dec. 17th, 1843.

Sir: I have sold all the pills I last had of you, please send another lot immediately. The sale of Lorraine's vegetable Pills is rapidly on the increase, they are becoming very popular. I sell more and more every day. As a curative medicine and purifier of the blood. I think they stand unrivalled. One fact I have noticed, that no one that has used them finds any fault with them; they have wrought some very great cures. One lady, who has been confined to the house and bed, a great part of the time, for twenty years, is now cured and able to work most of her time, after having taken 3 boxes only of Lorraine's Pills! I might name many other cases where the cures have been as great, but have not time.

Yours respectfully,
J. E. F. MARSH.

Portland, Me., Nov. 7th, 1843.

Sir: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them whatever; but, on the contrary, they have been praised loudly. I think we could have quite a number of highly respectable certificates from our citizens.

Yours respectfully,
E. MASON.

Chelms, Jan. 3d, 1844.

Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winter, have had some of the best physicians of Boston and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtue of Lorraine's Pills, I had no faith whatever, but I took them, and it is a solemn fact that when I had taken but eight pills, my Rheumatism had entirely left me, and I have remained well ever since.

N. B.: I never took more than one pill at a time and that on going to bed.

Yours respectfully,
W. M. HALSTAL.

OPINION OF A SKILLFUL PHYSICIAN.
Sir, the operation of Lorraine's Pills is past any philosophy to find out, how so small a Pill can produce such wonderful effects. I find that one of them will operate more than 3 or 4 of any other Pill, yet in their operation, mild, gentle and comforting. On this account, they are more than 100 per cent, cheaper, as physic, than any other Medicine I know of.

These Pills are now acknowledged by thousands who take them daily, to be the only medicine that fairly takes the Banner from all others. This extraordinary medicine has actually done wonders within one year past. They cause no pain or uneasiness of any kind in their operation, and require neither change of diet or care of any kind.

The attention of the reader is respectfully called to the important results from the use of these Pills. It will be seen, however great achievements have heretofore been made by the use of this invaluable medicine, still greater and more remarkable cures daily happen.

READER! READER!

If you are afflicted with Bronchitis, Asthma, Ob-
stinate or common Coughs and Colds, Spitting

ing cough, croup, difficulty of breath-
ing, sore throat, hoarseness, first
stages of consumption, and
all other Pulmonary
or Lung Com-
plaints, try

DOCT. EMANUEL'S BALSAMIC LUNG AND COUGH JELLY.

THE materials of this Jelly are purely vegetable and balsamic, and are the invention of an eminent physician, from whom the proprietor has purchased the recipe. It is certainly worth its weight in gold, but is put at a price to be within the reach of rich and poor.

Names and residences of persons residing in the city of New York, who have been cured or benefited by Dr. Emanuel's Balsamic Cough and Lung Jelly, when it was prepared in another form:
Mr. Hiram Aunts, 113 William-st., N. Y., had for some time, a dreadful pain in his side and chest, with a hacking cough, and shortness or difficulty of breath. He used part of a bottle of Dr. Emanuel's Balsamic Lung and Cough Jelly, which perfectly cured him.

Mrs. Morgan, Front-st., Brooklyn, had a very obstinate cough and cold. She tried every other remedy in vain, and Dr. Emanuel's Balsamic Lung and Cough Jelly entirely cured her.

Reader, reader, let the glad voices and grateful hearts of these respectable citizens of New York, appeal to your hearts and understandings, if you are afflicted with any pulmonary complaint, cough, cold, &c.

Mr. L. W. Conklin, 102 Eldridge-st.

Mr. Alonzo Brown, 72 Reade-st.

Mrs. Morgan, 162 Front-st., Brooklyn.

Orange country, April 19th, 1846.

Dr. EMANUEL,
Dear Sir:—You may perhaps think my statement almost incredible. My reason for fearing so is the fact of your never recommending your Jelly for the cure of consumption, but only in its primary or first stages. I have every reason to believe that I was in its last stage; my physician told me so; my friends told me so; as well did my symptoms, for they were truly alarming; and I felt fully convinced, that unless relief was obtained, I must soon be consigned to the narrow confines of the silent grave. But by the timely use of your remedy, I still live, and again enjoy my former good health. I had, indeed, dear sir, all the alarming symptoms you speak of as forming consumption in its worst stage; but by the use of your Jelly, I again say, I am cured.

Yours, dear sir, with great sincerity,
ISAAC J. BEED.

And now, reader, having given you a plain statement, let me conjure you to pause, ere it is too late; try this Balsamic Lung Jelly—try it. I have put its price to you as low as I can afford; if you use it, and succeed in curing yourself, I shall have the gratification of having rescued another from consumption; and I hope, in return, that you will not withhold from me your name, and a statement of your cure.

Dr. Emanuel's Balsamic Lung and Cough Jelly, is sold by the Agent;

Price fifty cents a bottle, or larger sizes one dollar.

The Great English Physician.

AMONG the many eminent Physicians, whose names have been recorded in history, and handed down to posterity as skillful operators and scientific practitioners, who by their extraordinary knowledge of Anatomy, Physiology, Chemistry, and the Materia Medica, there is not one who occupies a more elevated station in the eyes of his professional brethren, than the GREAT ENGLISH PHYSICIAN, SIR ASTLEY COOPER, the original inventor of Sir Astley Cooper's PILLS. These truly celebrated Pills, unlike all other purgatives in the form of Pills, do not debilitate or weaken the patient, while under their influence, neither do they grip, or produce sickness, or nausea. In cases of Cholera, Bilious Pains, Fever and Ague, Cholera Morbus, Dysentery, Constipation, Indigestion, Dyspepsia, Worms, Piles, Gravel, Coughs, Colds, Influenza, and all diseases arising from change of climate, temperature of weather, IMPUREN TOXIC OR THE STOMACH, OR IMPURITY OF THE BLOOD, these valuable Pills are the most efficacious medicine in the world. Where these Pills are used, no other medicine is required. The Sir Astley Cooper's Pills are sold at 25 cts. per box, with full directions, by

Mother's Relief.

IT is now about ten years since this medicine has been introduced to the public, and it stands unrivalled in its effects, bearing the test of the severe scrutiny of all classes, both friendly and unfriendly. It is but for one purpose;—for the use of Mothers who have to pass through a sea of affliction in giving birth to mankind, not to be described. It is to you we make an appeal. It is for your special and general good that you should make use of one bottle of the MOTHER'S RELIEF before confinement. Then you can approach the parturient chamber without feeling as if you were going to the chamber of death. You may rest assured it will still all forlorn and nervous affliction. It smooths and shields from irritation and by its peculiar properties it destroys the cause of hemorrhage or inflammation that so often attend and follow the hour of parturition. It causes sweet and natural rest, and at last facilitates the birth, so that Mothers have not to pass through such excruciating pain and distress. The Mother's Relief may be depended upon in all cases of threatening abortion where it is possible to be prevented in cases of Spasms, &c., causing frequent alarm, from two to three doses will give immediate relief.

As the subject is one that cannot with propriety be fully discussed in this public manner, we invite all who feel interested to call on our agents (most of the respectable Druggists in the United States,) or on the manufacturer, and they will be furnished with a pamphlet in which they will find all the facts to form a correct opinion of its merits, and also the opinions of many physicians of eminence, and of persons who have become acquainted with its beneficial effects.

CAUTION TO PURCHASERS.—Ask for BARTHOLOMEW'S Mother's Relief. None is genuine unless our signatures are found within the wreath of the direction that is pasted on the bottle, signed with our own hand, and over the neck of the bottle is a fac simile of our own hand writing also. By attending to the above directions, no one need be imposed upon. All orders will be promptly attended to.

Clove Anodyne Toothache Drops.—The Clove Anodyne is the best of all Toothache remedies. It is immediate and certain in its effects, curing the most violent toothache, or pain in the gums in ten minutes.

Experience has proved that this Anodyne composition will give immediate and permanent relief, after the failure of every other remedy; it is pleasant to the taste and smell; will not injure the teeth or gums in any way, and a few applications will entirely renovate the pain and soreness from a decayed tooth, so that it may be filled and rendered useful as ever. When the pain proceeds from the face or gums around a tooth apparently sound, this application will give speedy relief, by rubbing a few drops to the part affected. Price 25 cent. Bogle's Hyperion Fluid; Or Vegetable Hair Composition.

THE subscriber has been induced to bring this article before the public, at the request of his numerous customers, among whom are physicians and citizens of the first respectability, who have adopted its use in their families, and wish others to participate in its advantages.

The Hyperion is composed of vegetable ingredients, the secret of compounding and blending which is known solely to the subscriber. It is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture never before attained, yet free of animal grease or essential oils. It cures the pores of the skin, causes a healthy action in the blood vessels, nerves, &c., which feed the hair, thereby preventing BALDNESS AND GREY HAIR.

It entirely frees the skin from Scurf, Dandruff, and other cutaneous diseases, disposes the hair to curl, and changes the hardest hair into the most soft, glossy, and healthy state, also imparts to it a darker color, and the free use of it, both on the skin and hair, in a most healthy and luxuriant state until the latest period of life.

Ladies will find the Hyperion a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the fluid, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation of a good head of hair.

Manufactured and for sale by WM. BOGLE, 228 Washington, corner of Summer street, Boston. Sold in Newport by R. J. TAYLOR.

A Treatise on the Anatomy and Physiology of the Hair, with directions for preventing baldness, removing dandruff, and preserving the natural beauty and softness of the hair, by Wm. Bogle, accompanies each bottle. Aug. 21-1 y.

Roman Eyo Balsam, for Weak and Inflamed Eyes.—This valuable Balsam has been used for many years, in private practice, by the most established Oculists in this, and foreign countries, and may be confidently relied upon, as the most safe and speedy cure for weak or inflamed eyes, arising from any cause, that has ever been offered to the world. Its peculiar operation consists in removing all unhealthy action in the vessels of the eye, and parts adjacent, substituting a healthy process, which soon results in a perfect cure. The afflicted are invited to try and become convinced. In small jars, 25 cents.

Genuine Bears Oil—Highly Perfumed.—Perhaps our ladies and fashionable are not aware that three quarters of the 'Bear's oil' (so called,) with which they anoint their locks, wondering that it does them so little good, is nothing in the world but hog's lard, so highly scented as to escape detection, save on close examination. This, however, is simply the fact, and one that ought to be known. The only safe way is to purchase your Bear's Oil of HENRY JOHNSON, who gets it direct from Canada, and the North Western territory, and who never sells an ounce until he knows it to be genuine. The real Bear's oil is a wonderful beautifier and strengthener of the hair, and should be used by every one desirous of beautiful locks.
